

Edtech team presents:

Publishing Decisions and Opening Enrolment

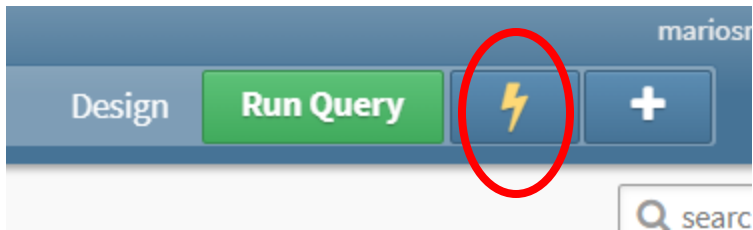

BATCH UPDATE METHOD

Batch Update Method

- ▶ For Batch Updates, Publishing Decision and Enrolment enabling constitutes that the students have already been transferred to the 'Accepted' column.
- ▶ Following the provided Link you can directly access the query with the 'Accepted' prospects:

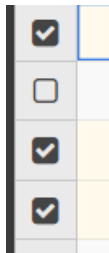

<https://axiom.veracross.com/foleysschool/#/results/1407583>

Batch Update

Click on the ACTIONS button and then click on, 'Batch Update Records'

If you require all the students to batch update proceed to the next step.

Using these boxed you can update only the selected profiles.

Select then the desired application status for the selected profiles.

Batch update options we use are only:
Accepted
and
Denied

Don't forget to click update

Batch Update Records

Select fields to batch update.

⚠ Fields with an unspecified value will be cleared.
